South Jakarta

Operations, Risk & Compliance Specialist with 6+ years of experience in Banking Operations, Anti-Money Laundering (AML), KYC Verification, Financial Crime Prevention, Project Documentation Management, and Operational Excellence. Experienced in managing large-scale operational processes, risk-based monitoring, compliance investigations, and documentation governance within banking and financial technology industries. Proficient in NetReveal (Detica), Silverlake, Jira, Microsoft Excel, and Power BI, with a strong focus on process improvement, regulatory compliance, and stakeholder management. Currently pursuing a Bachelor's Degree in Information Systems to further strengthen analytical and technology-driven operational capabilities.

Professional Experiences

PT. Bank UOB Indonesia - Jakarta <i>AFC Operation</i> - Specialized in end-to-end Anti-Financial Crime (AFC) operations within a high-volume banking environment. - Utilized NetReveal (Detica) and Silverlake (Core Banking System) to monitor and analyze daily transaction activities for potential financial crime and suspicious transactions. - Conducted risk-based transaction monitoring and fraud detection activities while maintaining high analysis accuracy and regulatory compliance. - Executed Customer Due Diligence (CDD) and Enhanced Due Diligence (EDD) for high-risk customer profiles in accordance with AML/KYC requirements. - Performed detailed investigations on suspicious transaction patterns, customer behavior, and potential financial risks. - Maintained comprehensive case documentation and audit trails to support regulatory reporting and internal investigations. - Collaborated with Compliance, Risk, and Internal Audit teams to improve verification turnaround time and operational effectiveness. - Supported continuous process improvement initiatives to enhance service level adherence and case resolution efficiency.	Dec 2025 - Present
PT. Citius Solusi Indonesia - Jakarta <i>Leader Document Control Project</i> - Led end-to-end documentation management for banking managed services projects across Indonesia, supporting more than 290 field technicians. - Ensured documentation completeness, accuracy, and compliance with client requirements and internal quality standards. - Utilized Jira for project tracking, workflow management, and administrative reporting activities. - Managed project documentation and records for major banking clients including BCA, BNI, Mandiri, BTN, Bank Jatim, Bank Sumsel Babel, and Bank BJB. - Implemented structured verification and quality control processes that reduced administrative revisions and audit findings. - Coordinated closely with project teams, operations teams, and stakeholders to ensure alignment between project scope and field execution. - Prepared operational reports, project status updates, and documentation performance metrics for management review. - Supported SLA compliance and continuous improvement initiatives across managed service operations.	Oct 2023 - Dec 2025
PT. Visionet Internasional (OVO) - Jakarta <i>KYC Analyst</i> - Performed end-to-end Know Your Customer (KYC) verification processes for individual and corporate customers. - Conducted customer identity verification and document validation in accordance with company policies and regulatory requirements. - Reviewed customer profiles and supporting documents to identify potential risks and compliance concerns. - Investigated discrepancies in customer information and escalated high-risk cases for further review. - Maintained accurate customer records and ensured data integrity within internal systems. - Assisted in the implementation of Anti-Money Laundering (AML) controls and compliance procedures. - Collaborated with cross-functional teams to improve verification turnaround time and customer onboarding efficiency. - Supported internal audits and regulatory reviews by providing accurate documentation and verification records.	Jul 2019 - Sep 2023
PT. Interport Mandiri Utama - Jakarta <i>Data Entry Clerk</i> - Performed high-volume data entry activities with a strong focus on accuracy and data integrity. - Updated and maintained operational databases and information systems. - Conducted routine data validation and cross-checking to minimize entry errors. - Organized and maintained filing systems to support efficient document retrieval and record management. - Assisted operational teams with administrative and reporting activities as required.	Jun 2019
